

Lucky Duck

INSTRUCTION MANUAL

Lucky Duck

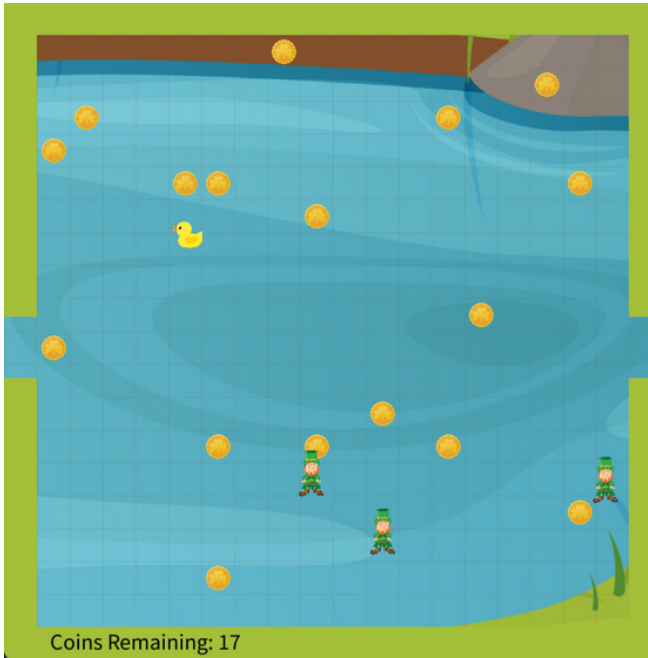

1. When you open the game it will direct you to this home screen. With your mouse, select “easy” to play in easy mode, “hard” to play in hard mode, or “?” to learn how to play.

2. If you select “?” it will take you to this “How-To” screen. Click the duck with your mouse to begin playing in easy mode!

Lucky Duck

3. When you select easy from the home screen or click the duck on the “How-To” screen, the easy game screen will pop up! Use your arrow keys to steer the duck up, down, left, or right. Collect as many coins as you can while avoiding the leprechauns.

Tip: In easy mode, there will be 20 coins to collect and 3 slow leprechauns to avoid. In hard mode, there will be 30 coins to collect and 4 fast leprechauns to avoid. Select easy or hard based on your skill set!

Lucky Duck

4. When you successfully collect all the coins while avoiding the leprechauns, this screen will pop up saying that you won! To play again, click the “play again” button with your mouse, and it will take you back to the home screen.

5. If you run into a leprechaun, this screen will pop up saying that you lost. To play again, click the “play again” button with your mouse, and it will take you back to the home screen.
